

Mechanics / automation - junior technician

ABOUT US:

JGruppen is focused on performing electrical and mechanical installations and maintenance work. Our HQ is based in Sweden, EU, but our field of operation is all over the world and across Europe, North America all over Middle East.

We are an independent and committed external contractor. Mostly, thanks to our reputation for proper delivering of cost-effective and high-quality jobs, performed by our competent professionals, we are receiving more and more assignments in various projects for large international automated system builders and integration specialists.

We have opened a new branch in North America and need to strengthen up our teams with several new skilled colleagues. During 2025 we are hiring 10-12 new skilled craftsman who will join in our teams across the world to learn the trade.

YOUR AREA OF RESPONSIBILITY WILL INCLUDE:

- Installing, servicing and repairing automated industrial and warehouse systems like conveyor belts, Autostore systems, rack shelves, mezzanines, cranes etc.
